

# Sister Schools

Opening eyes • Changing lives

---

Sister Schools teaches compassion, service and social responsibility by partnering schools in the Pacific Northwest with children in Ugandan schools and orphanages.

Through unique and powerful return presentations, our students see the direct impact their specific gifts make in the lives of other children. Whatever their personal situation, our children learn they can make a positive difference in the world.

Our spring return presentation locations and dates are listed on our website. Join us at a presentation near you to preview what your school can experience.

## Scheduling Your School

While school presentations and supply drives only take place in the fall, it is best to schedule your school the preceding year, before summer break. All fall presentations must be completed by December 1<sup>st</sup> to meet our shipping deadlines. Space is limited and fills up fast. If you wait until the fall to schedule your school available dates may be limited or unavailable. Contact us now!

## Presentation Format

Our initial fall presentations work best in small groups of one or two classes at a time. Grade level presentations also work well for larger schools. For schools that cannot accommodate multiple small group presentations, a morning assembly may be scheduled after which the Sister Schools presenter is available for classroom visits.
