

FIRST-YEAR PROGRAM SPONSORSHIP

Investment: \$2,500

Sister Schools' dual-impact program is not only changing entire communities in Uganda, it is also affecting hundreds of children in the Puget Sound.

Every year, local participants experience the life-altering power of generosity. They learn that no matter who they are, they can change lives around the world and in their own communities.

Partner with a local elementary school and help the impact of their sacrifices produce waves of change in Uganda. Every dollar is an investment in the next generation, one that will be involved, empowered, and sitting in your seats in 20 years.

Your Community Sponsorship provides for all expenses associated with a school's participation, including travel and shipping costs.

In-School Benefits

- Logo placement on flyers sent home with students
- Logo placement on posters hung in school throughout the year
